

Keeps its promises

AREAS OF APPLICATION

WEB BOND TA 101 temporary textile adhesive is the ideal addition to every handcraft and sewing kit. Its exceptional formula not only bonds several layers of material thus eliminating the need for pinning, but it is also extremely well suited for applying appliqués. Thanks to its meshed coverage, WEB BOND TA 101 can be applied in a targeted way, making

it possible to prevent soiling. WEB BOND TA 101 also makes it easier to attach a fleece when quilting and can also be applied many times to paper and cardboard and then easily removed again. WEB BOND TA 101 contains no acids or long-lived greenhouse gases.

PRODUCT DESCRIPTION

WEB BOND TA 101 temporary textile adhesive is the ideal aid for quilting, patchwork, embroidery, sewing, and applying appliqués. It can also be used for paper crafts and other handcrafts.

Usage instructions

Please shake before using. Apply to one side only, preferably to the part being attached. Spray evenly from a distance of 25 – 30 cm. Use the cleaner to remove glue residues.

PRODUCT FEATURES

- Meshed covering
- Targeted application
- Less soiling
- Transparent
- Odourless
- Stain-free
- Convenient
- Can be used indoors
- Contains no CFCs
- Contains no acids

Cleanliness out of the can

AREAS OF APPLICATION

GOO AWAY™ is the perfect cleaning agent for embroidery needles and hoops or quilt-frames. Furthermore, it can be used on wood, plastic, metal or even glass to remove sticky oily residues. When using for the

first time on plastics, be sure to test a small area to make sure it does not smear the plastic. Some soft plastics will smear when various cleaners are applied.

USAGE INSTRUCTIONS

Shake prior to use. Spray intended area to be cleaned and wipe clean with cloth. For those areas that are extremely sticky or have a label to be removed spray and let set for a few minutes to allow sticky residues to dissolve. Wipe area clean with soft cloth or paper towel.

PRODUCT FEATURES

- Cleans sticky labels and residue from wood, glass, metal, plastic and other hard surfaces
- Easy to spray can
- Orange-citrus smell
- No CFC's
